

02D - Collinearity and Slope HW - Answer Key

1. Yes; $m=2$ throughout.
2. No; the slopes are not constant (for example, $m=-1$ and $m=-\frac{4}{3}$).
3. Yes; $m=-3$ throughout.
4. Yes; $m=0$ throughout.
5. No; the slopes are not constant (for example, $m=-2$ and $m=-\frac{5}{3}$).
6. Yes; the points lie on the same vertical line (slope undefined).
7. No; the slopes are not constant (for example, $m=\frac{1}{2}$ and $m=\frac{3}{4}$).
8. Yes; $m=\frac{2}{3}$ throughout.
9. No; the slopes are not constant (for example, $m=-\frac{1}{2}$ and $m=-\frac{3}{4}$).
10. Yes; $m=-\frac{2}{3}$ throughout.
